What touched me when I started working at TAQ was how I was welcomed by my supervisors and employees. They were really super nice to me.

I started in handling, then on the operation line for Biscuits Leclerc. Over the years, I added several strings to my bow! It allowed me to discover and develop many skills.

A \$5 million Community Bond Campaign - Why?

Groupe TAQ aims to create 50 new permanent jobs over the next 3 years. To be agile and develop business opportunities that will support the mission, the company needs greater financial flexibility.

- 1 **Create a Development & Acquisition fund.** Examples:
 - Faber Division: develop a new snowshoe for the North American market by 2026;
 - Deploy a new place of business in the Portneuf MRC to create 25 jobs for people with disabilities (investment in building and equipment required);
 - Acquire companies with the potential to create jobs for people with disabilities.
- 2 **Consolidate achievements**
 - The business environment is changing rapidly. To face the challenges of the future and pursue its mission, Groupe TAQ wishes to rebalance its short- and long-term indebtedness in harmony with its assets. By continuing its annual investments in equipment (\$750 K over the next three years) and accelerating the repayment of certain high-interest loans, this rebalancing will help preserve jobs, remain competitive in the subcontracting market and consolidate working capital in the short term.

A solid investment with lasting impact

Four sets of obligations* to unite institutions, businesses and the general public towards a single goal: **a lasting contribution to the creation of dignified employment for people living with disabilities of Groupe TAQ.**

*The full terms and conditions of the bonds issue are published in the Investor Kit dated April 30, 2025 and available at www.groupectaq.com.
